

**STATE OF GEORGIA
TMDL IMPLEMENTATION PLAN
CHATTAHOOCHEE RIVER BASIN**

DELISTED SEGMENTS

Prepared by
The Georgia Department of Natural Resources
Environmental Protection Division
Atlanta, GA

TMDL Implementation Plans are not required for these segments:

| Waterbody Name | Stream Location | County | Pollutant |
|------------------------|-----------------------------|---------------------|------------------|
| 1. Chattahoochee River | Soquee River to Lake Lanier | Habersham/ White | FCG(Hg) |
| 2. Bull Creek | Columbus | Muscogee | FC |
| 3. Rocky Branch | Columbus | Muscogee | FC |
| 4. New River | Heard/Coweta Counties | Heard/Coweta | FC |

INTRODUCTION

TMDL implementation plans are not required for the preceding segments because Georgia Environmental Protection Division (Georgia EPD) has delisted them.

DELISTED SEGMENTS

EPA requires Georgia EPD to demonstrate good cause for not including streams that were previously listed on the Section 303(d) list. Good cause includes, but is not limited to, more recent and accurate data, more sophisticated water quality modeling, flaws in the original analysis that led to the waterbody being listed or changes in conditions, for example, new control equipment, or elimination of discharges. In the Draft 2004 Section 303(d) listing proposal Georgia EPD submitted good cause justification to EPA to delist the stream segments listed above from its 2004 Section 303(d) list.

Georgia EPD delisted stream segments using methodology from the Water Quality in Georgia 2002-2003 Report (305(b) report), Appendix A, and USEPA document Guidance for 303(d) listing. In considering all the data on the affected segments EPD concluded that water quality is being met and removed them from the 2004 Section 303(d) list.
